The Science of Business Etiquette

TBA

4 hour presentation

A joint presentation by Deborah King, President of Final Touch Finishing School, and Horacio Sanchez, President of Resiliency, Inc. This seminar seeks to provide each participant with a clear understanding of the science that produces human behavior and how to appropriately demonstrate this comprehensive understanding in important social situations that is vital to business success.

Cultural Etiquette - Every culture has their own expression of 'rules' for behavior and dress.

Social Etiquette - This is based on age and gender. This is where deference is given to females and those who are elderly.

Business Etiquette - This is based on rank. Different courtesies are given to individuals based on position.

Manners - This is how we interact with one another. The foundation of all manners is the primal needs of the human brain and how to best meet these needs through expressions of kindness and respect for self, others, property and the environment.

We specialize in private custom programs for groups of all sizes.
